TECHNICAL DATA SHEET

Infinity
ROLL-ON FILLER

Infinity Roll-On Filler is a ready-mixed, roll-applied, all-round filler designed for fast, ergonomic interior filling, jointing, and thin smoothing of walls and ceilings. The new formula delivers consistently high quality, enhanced performance, and a smooth working consistency.

SUITABLE USES

- Initial filling and levelling
- Joint filling on plasterboard (including use with paper tape)
- Thin smoothing of interior surfaces
- Compatible with Infinity Joint Tape or equivalent
- Meets CE-marking requirements (EN 13963)
- Manufactured in accordance with ISO 9001 & ISO 14001

When treating plasterboard, follow the recommendations outlined in EN 13963.

APPLICATION INSTRUCTIONS

- Apply using a roller to clean, dry, hard, and intact surfaces
- Minimum application temperature: +5°C
- Once dry, sand using grain size 150–180
- Wear eye and respiratory protection when sanding
- Remove sanding dust before applying further coats
- Prime before wallpaper installation

MATERIAL CONSUMPTION

- Joint filling on plasterboard: ~0.3 L / metre
- Thin smoothing (1 mm layer): ~1 L / m²

CLEANING & DISPOSAL

- Remove excess filler from tools before washing in water
- Do not rinse filler residues into drains—dispose of waste material at local waste centres
- Empty packaging completely before recycling

STORAGE

- Shelf life: Up to 12 months in unopened, frost-free, dark storage
- Packaging is date-marked
- Reseal opened containers tightly to prevent drying
- Supplied in a bucket made primarily from recycled plastic

PACKAGING

- 15 kg buckets

TECHNICAL DATA

- Binder: Latex co-polymer
- Solvent: Water
- Fillers: Microspheres & white dolomite
- Grain size: Max. 0.2 mm
- pH: Approx. 9
- Colour: Grey
- Flammability: Does not support or spread fire
- Packaging: 15 kg plastic bucket
